# Definitions

---

**Amount Subject to State Sales and Use Tax:** The amount subject to the state sales and use tax. This amount is calculated by taking taxable sales and adding use tax purchases.

**Gross Sales:** The total amount of all sales, leases and rentals of tangible personal property and all labor and service charges made during the reporting period.

**Metropolitan Division (MD):** If specified criteria are met, a metropolitan statistical area containing a single core with a population of 2.5 million or more may be subdivided to form smaller groupings of counties referred to as "metropolitan divisions."

**Metropolitan Statistical Area (MSA):** A free-standing metropolitan area composed of one or more counties.

**Reporting Outlets:** The number of individual business locations with a sales and use tax permit that filed a return.

**Taxable Sales:** This is the total amount of sales, leases and rentals of taxable personal property and taxable labor and service charges made during the reporting period. This number is not on the report, but an explanation is needed in order to understand Amount Subject to State Sales and Use Tax.

**Use Tax Purchases:** The cost of all taxable items removed from inventory for personal or business use and all purchases on which no Texas sales tax was paid or use tax accrued.

---

**Note:** Since July 1, 1990, the sales tax rate has stood at 6.25 percent. The numbers in this report do not provide information on city, county, MTA/CTD or SPD sales and use tax.
